## Note

- ① If you have any subjective symptoms such as bleeding other than menstruation, please get a medical examination at a medical institution immediately at a medical institution instead of the medical examination.
- ② Issuance / reissue of examination slip after consultation cannot be accepted.
- ③ Please note that you will be required to pay the cost of the examination if you have been examined more than once within the year.
- ④ If you are able to receive health examinations through your workplace, "ningen dokku," or by other means, you do not need to receive the city-sponsored examination.
- ⑤ Those who have never had sexual intercourse are less likely to be infected with HPV (human papillomavirus), which causes cervical cancer, and may have bleeding and severe pain during the test.
- ⑥ Those who are pregnant may not be able to receive the medical examination.
- ⑦ Do not receive the examination during your period. It is recommended to receive the examination from one week after the end of your period to the next period.
- ⑧ It is recommended to come wearing a skirt for a smooth examination.
- ⑨ If you are undergoing treatment, please consult your doctor.
- ⑩ If you have had your uterus completely removed, please consult your doctor before going to the cervical cytology.
- ⑪ The cancer screening used is not perfect at finding cancer (false negative.) In some cases, a false positive may occur. Please receive regular examinations and if you have any symptoms, contact a doctor.
- ⑫ We may use SMS (Short Message Service) with a mobile phone number to recommend people who have not been examined.
- ⑬ **Even-numbered people (once every two years) are eligible from the Reiwa 4. If you do not undergo the examination this year, the examination slip will not be sent from the next year onward, so please contact us if you wish.**
- ⑭ For group examinations, we ask that you not bring your child with you into the examination. If your child can wait patiently and quietly alone for your examination to finish, you may bring them along. However, if the child is injured on the premises, it is not the responsibility of Toyohashi City or the corresponding medical facility.
- ⑮ **Examinations may be cancelled or postponed due to infectious disease outbreaks or inclement weather. Please check the city website for the most up-to-date information.**
