

Register Your E-Mail Address

What is the “Toyohashi City Coronavirus Disease Notification System” ?

“Toyohashi City Coronavirus Disease Notification System” is a notification system. It will notify you if someone infected with COVID-19 visited the same facility or participated in the same event on the same day as you did and interacted with an unspecified large number of people. A notification will be sent to you from Toyohashi City once you register your e-mail address using the QR code.

Handling of acquired information

- Only the registered date, time, place and your e-mail address will be acquired.
 - The acquired information will be used only to prevent the spread of infection and will be erased from the system immediately after 60 days of registration.
 - Information of your name, address, phone number or location history will not be acquired.
- ※Check the Terms and Conditions for details when you register.

Contents that will be notified by e-mail

A notification such as the following will be sent to you.
“Toyohashi City was informed about a COVID-19 case and you may have interacted with him/her”
